FOR IMMEDIATE RELEASE

Rally to Defend Roe

5/12/2022

Grassroots organization Protect Women's Rights Milwaukee in partnership with the Democratic Party of Milwaukee and Citizen Action will be holding a rally and march on May 15th, 2022 at 2:00pm in Drexel Town Square, Oak Creek, WI to protest the United States Supreme Court's intention to overturn Roe v. Wade and the implications of that decision on the lives of Wisconsinites.

The decision that the Supreme Court is likely to make to overturn Roe v. Wade has immediate and severe implications for the citizens of Wisconsin. We are protesting more than just the decision to end a woman's right to choose - we are fighting for the right to privacy and freedom. Wisconsin is a state that will immediately revert to pre-Roe law. We cannot allow access to healthcare, privacy protection, and the freedom of choice that Roe currently protects to be abandoned in favor of a 173 year old authoritarian law that no longer serves the people of Wisconsin.

We are beginning our fight in Oak Creek and will continue to bring this fight to every Republican leaning suburb and area within Milwaukee County. We know that the majority of people agree that liberty and full access to healthcare are cornerstones of the American experience, and we hope to gain support and understanding from voters across the county. We are fighting for the rights of all, whether they realize it or not, and we will not back down until we've made our voices heard.

We will have engaging speakers to address each rally, including medical professionals and lawmakers, community members and faith leaders. We are proud to have

Congresswoman Gwen Moore, Milwaukee's District 8 Alderwoman JoCasta Zamarippa, midwives and OB/GYN's, and other community voices joining us for our first rally in Drexel Town Square.

Protect Women's Rights Milwaukee is a grassroots group formed to defend Wisconsin against the ramifications that the overturn of Roe v. Wade will cause.

The Democratic Party of Milwaukee seeks to promote and preserve liberal democratic government everywhere – abroad, in America, and in Wisconsin. To do that, we are working to build a stronger, more progressive Democratic Party.

Citizen Action of Wisconsin is dedicated to economic, racial, and environmental justice, and achieving a Wisconsin and an America where every human being has an equal opportunity to live a meaningful and fulfilling life. We believe that organizing is the only pathway to unlocking the true potential of democracy to fundamentally transform our society in the human interest and overcome structural racism, sexism, xenophobia, corporate domination, and other forms of oppression.
